Author Index

Anderson, W. 281

Bennett, L.W. 281
Branica, M. 211

Calcinai, M. 157
Camusso, M. 253
Ceccanti, B. 157
Costa, F. 157

Davies, I.M. 57
Davies, I.M. 133
Didon-Lescot, J.-F. 191
Durand, P. 191

El Hinshery, A.K. 51

Favarato, M. 29
Focardi, S. 77
Fossi, C. 77

García, C. 157
Gobbo, S. 29
Guinea, M. 19

Hernandez, T. 157
Hill, S. 1
Hötzl, H. 231
Hussain, T. 169

Ikeda, M. 43

Jones, K.C. 85

Khan, I.U.H. 169
Khan, M.A. 169
Kumar, N.S. 51
Kwokal, Ž. 211

Lelong, F. 191
Leonzio, C. 77

Marguš, D. 211
Martin, J.F. 281
Martinčić, D. 211
Martinotti, W. 253
McHenery, J.G. 133

Nakatsuka, H. 43
Neal, C. 1, 191
Nwankwoala, A.U. 179

Osibanjo, O. 179

Pakkiyaretnam, T. 19
Peerzada, N. 19
Peharec, Ž. 211
Perazzolo, M. 29
Pettine, M. 253

Revich, B.A. 121
Robson, A. 1
Rocco, P. 29
Rodger, G.K. 57, 133
Rosner, G. 231
Ryan, P. 19

Satoh, H. 43
Shenber, M.A. 243
Skliros, S. 19
Smith, C.J. 1

Watanabe, T. 43
Wild, S.R. 85
Winkler, R. 231

Yamamoto, R. 43

Zatta, P. 29

Subject Index

^{137}Cs, Chernobyl, resuspension, stratospheric contribution, 231

Acidification, hydrochemistry, Mediterranean, ecosystem, modelling, water-quality, 191

Air pollution, child health, environmental epidemiology, ecology of industrial cities, 121

Alkalinity, conductivity, flow, catchment, stream, hydrograph, 1

Atomic absorption spectrophotometry, environmental pollution, blood, cadmium, Lahore, population, 169

Background level, cadmium, dietary intake, Japanese, rice, 43

Biological indicators, Venetian lagoon, biological monitoring, heavy metals, ecotoxicology, *Mytilus*, 29

Biological monitoring, Venetian lagoon, biological indicators, heavy metals, ecotoxicology, *Mytilus*, 29

Blood, environmental pollution, cadmium, Lahore, population, atomic absorption spectrophotometry, 169

Cadmium, dietary intake, background level, Japanese, rice, 43

Cadmium, environmental pollution, blood, Lahore, population, atomic absorption spectrophotometry, 169

Catchment, conductivity, alkalinity, flow, stream, hydrograph, 1

Catfish, molinate, off-flavor, 281

Chernobyl, ^{137}Cs, resuspension, stratospheric contribution, 231

Child health, air pollution, environmental epidemiology, ecology of industrial cities, 121

City refuse, compost, humic acids, pyrolysis-gas chromatography, sewage sludge, 157

Clam, heavy metals, oysters, water, sediment, Elcho Island, 19

Clostridium, marine pollution, sewage disposal, sediment, trace metals, 133

Compost, city refuse, humic acids, pyrolysis-gas chromatography, sewage sludge, 157

Conductivity, alkalinity, flow, catchment, stream, hydrograph, 1

Dietary intake, cadmium, background level, Japanese, rice, 43

Ecology of industrial cities, air pollution, child health, environmental epidemiology, 121

Ecosystem, hydrochemistry, Mediterranean, modelling, water-quality, acidification, 191

Ecotoxicology, Venetian lagoon, biological indicators, biological monitoring, heavy metals, *Mytilus*, 29

Elcho Island, heavy metals, oysters, clam, water, sediment, 19

Environmental epidemiology, air pollution, child health, ecology of industrial cities, 121

Environmental fate, sewage sludge, organic compounds, 85

Environmental pollution, blood, cadmium, Lahore, population, atomic absorption spectrophotometry, 169

Flow, conductivity, alkalinity, catchment, stream, hydrograph, 1

Freshwater, heavy metals (As, Cr), speciation, transport, 253

Gas chromatography, organochlorine pesticides, surface waters, Nigeria, 179
Geochemical partitioning, marine pollution, sewage disposal, sediment, trace metals, 57

Heavy metals (As, Cr), freshwater, speciation, transport, 253
Heavy metals, oysters, clam, water, sediment, Elcho Island, 19
Heavy metals, stranded dolphins, selenium mercury interaction, 77
Heavy metals, Venetian lagoon, biological indicators, biological monitoring, ecotoxicology, *Mytilus*, 29
Humic acids, city refuse, compost, pyrolysis-gas chromatography, sewage sludge, 157
Hydrochemistry, Mediterranean, ecosystem, modelling, water-quality, acidification, 191
Hydrograph, conductivity, alkalinity, flow, catchment, stream, 1

Japanese, cadmium, dietary intake, background level, rice, 43

Lahore, environmental pollution, blood, cadmium, population, atomic absorption spectrophotometry, 169
Lead, settled dust, Tripoli, Libya, levels, 51
Levels, lead, settled dust, Tripoli, Libya, 51
Libya, lead, settled dust, Tripoli, levels, 51

Marine pollution, sewage disposal, sediment, trace metals, *Clostridium*, 133
Marine pollution, sewage disposal, sediment, trace metals, geochemical partitioning, 57
Mediterranean, hydrochemistry, ecosystem, modellir.g, water-quality, acidification, 191
Modelling, hydrochemistry, Mediterranean, ecosystem, water-quality, acidification, 191
Molinate, catfish, off-flavor, 281
Mussels, sea water, transplantation, trace metal concentration, 211
Mytilus, Venetian lagoon, biological indicators, biological monitoring, heavy metals, ecotoxicology, 29

Nigeria, organochlorine pesticides, surface waters, gas chromatography, 179

Off-flavor, molinate, catfish, 281
Organic compounds, sewage sludge, environmental fate, 85
Organochlorine pesticides, surface waters, Nigeria, gas chromatography, 179
Oysters, heavy metals, clam, water, sediment, Elcho Island, 19

Population, environmental pollution, blood, cadmium, Lahore, atomic absorption spectrophotometry, 169
Pyrolysis-gas chromatography, city refuse, compost, humic acids, sewage sludge, 157

Radon, variation, washout, 243
Resuspension, ^{137}Cs, Chernobyl, stratospheric contribution, 231
Rice, cadmium, dietary intake, background level, Japanese, 43

Sea water, mussels, transplantation, trace metal concentration, 211
Sediment, heavy metals, oysters, clam, water, Elcho Island, 19
Sediment, marine pollution, sewage disposal, trace metals, *Clostridium*, 133
Sediment, marine pollution, sewage disposal, trace metals, geochemical partitioning, 57
Selenium mercury interaction, stranded dolphins, heavy metals, 77
Settled dust, lead, Tripoli, Libya, levels, 51
Sewage disposal, marine pollution, sediment, trace metals, *Clostridium*, 133
Sewage disposal, marine pollution, sediment, trace metals, geochemical partitioning, 57
Sewage sludge, city refuse, compost, humic acids, pyrolysis-gas chromatography, 157
Sewage sludge, organic compounds, environmental fate, 85

Speciation, freshwater, heavy metals (As, Cr), transport, 253
Stranded dolphins, heavy metals, selenium mercury interaction, 77
Stratospheric contribution, ^{137}Cs, Chernobyl, resuspension, 231
Stream, conductivity, alkalinity, flow, catchment, hydrograph, 1
Surface waters, organochlorine pesticides, Nigeria, gas chromatography, 179

Trace metal concentration, sea water, mussels, transplantation, 211
Trace metals, marine pollution, sewage disposal, sediment, *Clostridium*, 133
Trace metals, marine pollution, sewage disposal, sediment, geochemical partitioning, 57
Transplantation, sea water, mussels, trace metal concentration, 211
Transport, freshwater, heavy metals (As, Cr), speciation, 253
Tripoli, lead, settled dust, Libya, levels, 51

Variation, radon, washout, 243
Venetian lagoon, biological indicators, biological monitoring, heavy metals, ecotoxicology, *Mytilus*, 29

Washout, radon, variation, 243
Water, heavy metals, oysters, clam, sediment, Elcho Island, 19
Water-quality, hydrochemistry, Mediterranean, ecosystem, modelling, acidification, 191
